LARGE RECURRING REVENUE BASE

Approximately 73% of LTM 3Q-2023 revenues were of a recurring nature

Gaming Operations: Leased gaming machines generally placed on a shared-revenue basis with casino operators; more than 25% of the total installed base are units under multi-year placement contracts; all other standard and premium participation units generally remain on casino floors for as long as in-casino performance is acceptable, with periodic game theme updates provided to refresh in-casino performance.

Financial Access Services: Revenue earned on transactional activity under multi-year service contracts (typically 3-5 years) with generally sticky long-lasting relationships; average length of Everi's Top 30 customer relationships in excess of 12 years.

Software & Other: Critical software and services are integrated into casinos' daily operations and generally provided under annual or multi-year agreements, such as player loyalty and regulatory compliance software, product subscriptions, gaming industry Credit Bureau and kiosk maintenance services. 74% of Software & Other is of a recurring nature.

HISTORY OF LONG-TERM GROWTH

Robust product pipeline, consistent operating execution and attractive margins drive steady revenue and Adjusted EBITDA⁽¹⁾ growth

CAPITAL STRUCTURE AND LEVERAGE

Strong balance sheet and liquidity

- \$400 million unsecured debt fixed at 5% due 2029
- \$587 million secured debt at LIBOR +2.5% due 2028
- \$125 million available liquidity under revolver at LIBOR +2.5%
- Net Leverage at low end of long-term target range of 2.5x 3.0x

1) Total Net Leverage is calculated using Total Net Debt divided by LTM Adjusted EBITDA. For purposes of public disclosure, the Company uses reported Adjusted EBITDA and not Adjusted EBITDA as defined in the existing and previous credit agreements. Cash netting uses the Company's Net Cash Position and was capped at \$50 million for FY 2017 - 2019 PF, as defined in the previous credit agreement. Subsequent to the debt refinancing completed in 3Q-2021, cash netting uses the Company's Net Cash Position and is not capped, as defined in the existing credit agreement. Net Cash Position is the sum of cash and cash equivalents plus settlement receivables less settlement liabilities. Cash and cash equivalents can fluctuate substantially based upon the timing of our receipt of payments for settlement receivables and payments we make to customers for our settlement liabilities.

2)The 2019 pro forma includes the \$85 million reduction of senior unsecured notes paid on January 6, 2020.

Given these risks and uncertainties, there can be no assurance that the forward-looking information contained in this presentation will in fact transpire or prove to be accurate.

This presentation should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2022, and with the information included in our other press releases, reports and other filings with the SEC. Understanding the information contained in these filings is important in order to fully understand our reported financial results and our business outlook for future periods.

NON-GAAP FINANCIAL MEASURES

In order to enhance investor understanding of the underlying trends in our business, our cash balance and cash available for our operating needs, and to provide for better comparability between periods in different years, we are providing in this presentation Adjusted EBITDA, Free Cash Flow, which are not measures of our financial performance or position under United States Generally Accepted Accounting Principles ("GAAP"). Accordingly, Adjusted EBITDA, Free Cash Flow should not be considered in isolation or as a substitute for measures prepared in accordance with GAAP. These measures should be read in conjunction with our net earnings, operating income, basic and diluted earnings per share, and cash flow data prepared in accordance with GAAP.

We define Adjusted EBITDA as earnings (loss) before interest, taxes, depreciation and amortization, loss on extinguishment of debt, noncash stock compensation expense, accretion of contract rights, write-down of assets, litigation accrual, employee severance costs and other expenses, foreign exchange loss, asset acquisition expense, non-recurring professional fees, other one-time charges and the adjustment of certain purchase accounting liabilities. We present Adjusted EBITDA as we use this measure to manage our business and consider this measure to be supplemental to our operating performance. We also make certain compensation decisions based, in part, on our operating performance, as measured by Adjusted EBITDA; and our current credit facility and existing senior unsecured notes require us to comply with a consolidated secured leverage ratio that includes performance metrics substantially similar to Adjusted EBITDA.

Everi defines Free Cash Flow as Adjusted EBITDA less cash paid for interest net of cash received for interest income, cash paid for capital expenditures, cash paid for placement fees, and cash paid for taxes net of refunds. We present Free Cash Flow as a measure of performance and believe it provides investors with another indicator of our operating performance. It should not be inferred that the entire Free Cash Flow amount is available for discretionary expenditures.

Prior to the debt refinancing that was completed on August 3, 2021, Everi defined Total Net Debt as total principal face value of debt outstanding, the most directly comparable GAAP measure, less cash and cash equivalents or \$50 million, whichever is smaller. Subsequent to the debt refinancing that was completed on August 3, 2021, Everi defines Total Net Debt as total principal face value of debt outstanding, the most directly comparable GAAP measure, less cash and cash equivalents.

(1) For purposes of public disclosure, the Company uses reported Adjusted EBITDA and not Adjusted EBITDA as defined in the existing and previous credit agreements. Cash netting uses the Company's Net Cash Position and was capped at \$50 million for FY 2017 - 2020, as defined in the previous credit agreement. Subsequent to the debt refinancing completed in 3Q-2021, cash netting uses the Company's Net Cash Position and is not capped, as defined in the existing credit agreement.

(1) For purposes of public disclosure, the Company uses reported Adjusted EBITDA and not Adjusted EBITDA as defined in the existing and previous credit agreements. Cash netting uses the Company's Net Cash Position and was capped at \$50 million for FY 2017 - 2020, as defined in the previous credit agreement. Subsequent to the debt refinancing completed in 3Q-2021, cash netting uses the Company's Net Cash Position and is not capped, as defined in the existing credit agreement.
